

KVK Cuttack Celebrated National Science Day 2020

KVK Cuttack celebrated National Science Day 2020 on 28 February 2020 to spread scientific temper among school children at KVK Campus. 87 children and five teachers from nearby schools of Mania, Kadei, Uchapada, Bainchua and Kshetrapal along with nine KVK staff participated in this event. Science Quiz competition was organized in Junior groups (class 5-7) and Senior (class 8-9) groups, where top five children were awarded with prizes. Sri PrafullaKumar Sarangi, a retired science teacher of the locality and the Chief Guest of the program motivated the children to adopt scientific thought and stay updated about the recent progress in science related to agricultural practices and scientific revolution in other aspects of everyday life for sustainable living. Dr RK Mohanta, SMS (Animal Science) and coordinator of the program briefed the participants about importance of Science and Swachhata in day-to-day activities. He emphasized on the role of KVK-School collaboration in percolation of recent advances in agricultural science for popularization of technologies into the rural population, thereby reaching to the farming community. The participants visited the crop cafeteria and implements to learn about new technologies. Sri SR Rout offered the vote of thanks. The participants were enthused from the scientific interaction and went home with a vow to practice swachhata in daily life and inculcate scientific temper.
