

## **Skill oriented training programme on “Safe and judicious use of Glyphosate by PCOs”**

Three-day hybrid mode (Online/physical) skill-oriented training programme for farmers, grassroot level extension officials and pest control operators on “*Safe and judicious use of Glyphosate*” was organized by KVK Cuttack from November 13-15, 2023, through zoom platform and at KVK Cuttack campus, Santhapur. More than 50 participants like farmers, women and grassroot level extension officials like Krishimitras and pest control operators of the district participated in the programme. Dr Ranjan Kumar Mohanta, Senior Scientist and Head, KVK Cuttack welcomed the participants and highlighted the po and cons of herbicide application on soil, animal and human health. Dr Tusar Ranjan Sahoo, SMS (Horticulture) the organizer of training programme presented a lecture on “Safe and judicious use of Glyphosate by PCOs”. He emphasized on judicious use of herbicides for control of weed and their optimum use for plant protection measures.

Glimpses of Skill Oriented Training Programme
