

Two training-cum-awareness campaigns on “Optimization of soil health and efficient use of water”

Two training-cum-awareness campaigns were carried out by KVK Cuttack to educate the farmers, farmwomen and grassroots level extension agents about the optimization of soil health and ensure efficient use of water in the district. On 19.12.23, the programme was organised in Gopinathpur village of Baramba block where 54 farmers and farm women actively participated, while on 20.12.23 at KVK Campus 40 grassroots level extension agents took part. Dr Ranjan Kumar Mohanta, Senior Scientist and Head, KVK Cuttack discussed the economic and judicious use of water in agriculture as well as in daily life. Dr DR Sarangi, Subject Matter Specialist (Soil Science) elaborated the steps for a better soil health and emphasized the judicious use of water in agriculture through various micro irrigation methods. In KVK campus, Dr T R Sahoo, Subject Matter Specialist (Horticulture) discussed various natural ways of controlling pests in vegetable crops. Mr Debasish Jena, SMS (Agromet) and other KVK staff took part in the awareness drive.

Glimpses of Training-cum-Awareness Campaigns
