

Bhumi Suposhan Abhiyan

Bhumi Suposhan Abhiyan is being organized from 19th March to 19 April 2026 with the objective of promoting agricultural sustainability and encouraging farmers to nurture and enrich our mother earth through improved soil and water management practices. KVK Cuttack organized the live viewing of National Launch programme on March 19, 2026, at Jalgaon, where Hon'ble Agriculture Minister urged everyone to create awareness and strengthen farmers' capacity on key aspects such as soil health, soil–water relationships and conservation-oriented agricultural practices, thereby encouraging long-term sustainability of agricultural production systems. The program is associated with all the training and extension activities thereby sensitizing the farmers, farm women, rural youth and students on soil, the mother earth, and how healthy soil form the foundation of sustainable agriculture, food security and environmental resilience. More than ninety farmers and fifty children have been made aware on soil fertility and its preservation.
