

District Level Farm Mechanization Mela - Cuttack

KVK, Cuttack participated in the District Level Farm Mechanization Mela held at Baliyatra Ground, Cuttack, by setting up an informative exhibition stall from 8-12 January 2026. The stall showcased pheromone traps, 24×7 light traps, honeybee colonies with hive tools and veterinary materials, supported through banners and display materials. The initiative aimed at creating awareness among farmers about eco-friendly pest management practices, the role of beekeeping in enhancing farm income and the importance of farm mechanization and allied technologies. The KVK stall attracted many visitors and farmers interacted actively to understand the practical utility and field application of the demonstrated technologies.

Glimpses of the Event
