

Training Programme on 'Commercial Nursery and its Scientific Management' under ARYA

A three-day training programme for rural youth was organized by Krishi Vigyan Kendra Cuttack from March 23-25, 2026, entitled “*Commercial Nursery and its Scientific Management*” under ARYA Project. In the programme 30 Youth from Tangi, Mahanga, Salipur and Nischintakoili took part. The Course coordinator Dr Dillip Ranjan Sarangi took theory and practical classes for the trainees. Dr T R Sahoo, Senior Scientist (Olericulture), ATARI Hyderabad delivered lecture as resource person through on-line mode. Mr. Ranjan Rout, an entrepreneur of Nischintakoili block, shared his experience in Nursery management and scope of this enterprise in the district. In the training programme, soil health concept, natural farming, biofertilizer use, method of increasing nutrient use efficiency, fertilizer calculation and scheduling and acid soil management were taught. Dr Rajan Kamboj discussed different insect pests in nursery and their management. He also highlighted the safe use of pesticides and beekeeping in detail. Mrs. B. Mounika highlighted the Govt. Schemes beneficial for the youth and farmers. Dr Ranjan Mohanta, Head, KVK encouraged the participants to use the acquired training skill and knowledge for establishing a nursery for production of quality saplings.

Glimpses of Training Programme
